

Appl. No. 09/701,261  
Response filed on February 27, 2003

Figure 2 is a SCM picture of typical aggregates in a product according to the invention."

#### REMARKS

The Communication dated January 27, 2003 notes that Applicants' Response filed on November 4, 2002 did not specifically respond to the objections to the specification, including the objection to the title, as set forth in the prior office action. Accordingly, Applicants have amended the title and have included a Brief Description of the Drawings Section on page 3 of the specification.

It is believed that these actions address the remaining objections noted by the Examiner.

Therefore, reconsideration and withdrawal of the outstanding objections and rejections are requested.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. §§ 1.16 or 1.17; particularly, extension of time fees.

Respectfully submitted,
